

A LOSS OF \$80,000,000!!!

Labor-saving inventions or discoveries have often been violently opposed on the ground that they take workingmen's bread out of their mouths. Although experience has shown the fallacy of that theory the feeling, or fear, was natural.

But it is not so much the lack of work as the inability to work that causes poverty and suffering. In England and Wales every workingman averages ten days of sickness every year, with a total loss of wages for all of about \$80,000,000 per year. In this country the loss is much greater.

In small countries the prevailing disease is indigestion and dyspepsia and its consequences—such as rheumatism, and other ailments resulting from impure blood, a result of dyspepsia.

No thorough, rapid and trustworthy cure for this universal and obstinate malady existed until the Mt. Lebanon (N. Y.) Community of Shakers placed upon the market their now famous remedy, called the Shaker Digestive Cordial. It is prepared from roots and herbs cultivated solely by them. Nothing more certain, safe and palatable can be imagined. It expels the impurities from the body by means of the bowels. Kidneys and skin, and imparts vigor and tone to the stomach—upon whose proper action all our strength, activity and endurance depends. For many years the Shakers have given earnest attention to this subject, and their final success is thankfully admitted by the multitude who have been cured by the Cordial after all means have failed. Their high reputation for skill as herbalists, for honesty and religious sincerity guarantees whatever they recommend.

No invention can overtake your work from you if you are able to work. Health and strength are the vital considerations.

WHISKIES.**OLD Export Whiskey.****Guaranteed Eight Years Old.**

IT certainly is a duty and our desire to acquaint you with the excellent qualities of our Export Whiskey when you need this article for medicinal or family purposes. There is none on the market more entitled to your consideration. It has a full body and being free from all injurious ingredients should command your attention.

Full Quarts.....\$1.00.

try a bottle of

KLEIN'S SILVER AGE RYE**Whiskey?****OUR OPPORTUNITY**

To Increase Our Trade With the Orient Should Not be Ignored.

WASHINGTON, Nov. 13.—In the course of a thoughtful report upon labor and wages in China, United States Consul General Jernigan strongly urges the merchants of America to be ready to seize upon the splendid opportunities for trade that are sure to follow the approaching awakening of China. He shows how at present the trade balance is heavily against us in the case of both Japan and China, in the former the balance last year being \$19,000,000 and in the latter \$16,000,000, while Great Britain, several thousand miles more distant, had balance in her favor about equal to our losses. The consul general holds that the European merchant is much more favored than his American competitor by the government aid afforded to the great steamship lines. Every week British and German steamship enter Shanghai, where no American ship is seen. As better and cheaper communication builds up trade, Mr. Jernigan argues that the cutting of the Nicaragua canal would greatly benefit American commerce with the east, and with an American bank in China and an American journal published there the commercial prosperity of the United States would be great.

DUEL IN NEW YORK.

Two Young Men Settle a Quarrel According to the Code.

NEW YORK, Nov. 13.—Warren R. McVeigh and Paul T. Wilkes settled a dispute by fighting a duel with revolvers at Fort Lee. Their seconds were Robert R. Owens and Frank Butler. The duel was the result of a quarrel at the dinner table at the Astor House, and McVeigh was the challenging party.

Pistols were the weapons chosen, and each combatant was to use a five-chambered revolver and advance toward his opponent from a distance of twenty paces, firing until his cartridges were exhausted or one man should fall. When the word was given both men fired, but no one was hurt. At the third shot a bullet passed through McVeigh's hand. McVeigh's fourth shot struck Wilkes on the arm. At the arm. At the fifth shot the men were but eight paces apart, but both missed. All parties then repaired to a coffee house and partook of a friendly breakfast, after a surgeon had dressed the wounds of the duelists.

The convention decided to change the per capita tax paid into the general office from eight to ten cents.

The report of General Auditor Henry White showed that the treasury has now \$1,000 above all indebtedness.

ALMOST A TRAGEDY.

Governor Brown, of Kentucky, Resents a Charge of Treason.

LOUISVILLE, Ky., Nov. 13.—A special to the Post from Frankfort, says: Governor Brown and W. H. Newhall, a clerk in the auditor's office, quarreled in the state house yesterday, passed the lie and would have come to blows had bystanders not interfered. Nowball had accused the governor of voting the Republican ticket and acting the part of a traitor. The executive responded with an emphatic denial and one of the men struck at the other, when friends of the two separated them. It was claimed that Governor Brown attempted to draw his revolver, but he denies that he was armed.

Freedmen's Aid Society.

CHICAGO, Nov. 12.—At today's session of the national convention of the United Garment Workers a resolution was passed favoring the establishment of an eight-hour work day in all branches of the United Garment Workers of America, to be effected gradually.

A stricter control of the union label was also discussed, and a resolution looking to means that will bring this about was passed. This is in the line of preventing manufacturers from using the union's guarantee on "sweat shop" goods.

The convention decided to change the per capita tax paid into the general office from eight to ten cents.

The report of General Auditor Henry White showed that the treasury has now \$1,000 above all indebtedness.
